IMPORTANT SAFETY INFORMATION

TO THE OPERATOR

Prior to using the TARCO® TYPHOON, you must be properly trained in the full operation of this machine. This would include but not be limited to a complete review of the operating and safety manual and a complete understanding of all safety procedures including the safety decals and information on this machine. If there is something you do not understand, ask your supervisor to explain it to you. If you require additional manuals or decals, please contact your dealer or the manufacturer.

Make sure all the manufacturers’ protective guards, shields, and screens are in good repair, in place, and securely fastened. Damaged, missing, or weakened safety components can create a hazardous situation for the operator. NEVER remove or modify any safety components on this equipment.

Wear all the protective clothing and personal safety devices issued to you or called for by the job conditions. This may include but is not limited to a hard hat, safety shoes, safety glasses or goggles, heavy gloves, hearing protection, reflective clothing or wet weather gear. Remember, you are responsible for your safety and that of your co-workers. Good safety practices protect you and the people around you.

NEVER ride on any part of the equipment or trailer when operating the machine or at any time. Never modify the machine for riders in any way. Prior to operating this machine, be certain that all operators can ride safely in the truck or vehicle being used to trailer the machine. If your machine has been altered to accommodate riders, remove these alterations immediately as this can result in serious injury or death. A “NO RIDERS” decal should be in place. Please request these from your dealer or use the web to contact and request them from Fort Miller FAB3 Corp. (518)-584-4400 or www.fmfab3.com.
A WORD ABOUT SAFETY:

The TARCO® Highlander spreader/hopper described in this manual is normally operated during bad weather such as snow & ice conditions. Due to these operating conditions it is important that you the operator use good safety practices at all times to protect yourself, co-workers, and others when operating this machine.

It is not practical or possible to warn you about all the hazards associated with the operation and maintenance of this machine. You must use your own good judgement supplemented with the information found on the safety decals, instructions in this manual, your employer’s safety programs, safety codes, local, state/provincial, and federal laws, rules and regulations.

When performing maintenance on the machine, trouble shooting the operations of the machine, loading the machine with material or operating the machine observe & obey all safety decals on the machine and warnings listed in the manual. Failure to do this could result in serious injury or death to you or others.

Remember at all times that as the operator, you are responsible for the safe operation of this equipment and are responsible for the safety of others. Good safety practices not only protect you but also protect the people around you.
