****IMPORTANT SAFETY INFORMATION****

IMPORTANT SAFETY INFORMATION

TO THE OPERATOR

Prior to using the TARCO® T-2000 equipment, you must be properly trained in the full operation of the machine. This would include but not be limited to a complete review of the operating and safety manual and a complete understanding of all safety procedures including the safety decals and information on the machine. If there is something you do not understand, ask your supervisor to explain it to you. If you require additional manuals or decals, please contact your dealer or the manufacturer.

Make sure all the manufacturers' protective guards, shields, and screens are in good repair, in place, and securely fastened. Damaged, missing, or weakened safety components can create a hazardous situation for the operator and bystanders. NEVER remove or modify any safety components on this equipment.

Wear all the protective clothing and personal safety devices issued to you or called for by the job conditions. This may include but is not limited to a hard hat, safety shoes, safety glasses or goggles, heavy gloves, hearing protection, reflective clothing or wet weather gear. Remember, you are responsible for your safety and that of your co-workers. Good safety practices protect you and the people around you.

NEVER ride on any part of the equipment when operating the machine or at any time. Never modify the machine for riders in any way other than inside the cab. Prior to operating this machine, be certain that all operators can ride safely in the truck or vehicle being used. If your machine has been altered to accommodate riders, remove these alterations immediately as this can result in serious injury or death. A "NO RIDERS" decal should be in place. Please request these from your dealer or use the web to request them from Fort Miller FAB3 Corp. (518)-584-4400 or www.fmfab3.com.

****IMPORTANT SAFETY INFORMATION****

A WORD ABOUT SAFETY:

The Tarco® 2000 Combination Dump Body/Spreader described in this manual can be operated year round during conditions with bad weather such as snow & ice conditions. Due to these adverse operating conditions it is important that you the operator use good safety practices at all times to protect yourself and co-workers and others when using this machine.

It is not practical or possible to warn you about all the hazards associated with the operation and maintenance of this machine. You must use your own good judgement supplemented with the information found on the safety decals, instructions in this manual, your employer's safety programs, safety codes, local, state/provincial, and federal laws, rules and regulations.

When performing maintenance on the machine, trouble shooting the operations of the machine, loading or unloading the machine with material or operating the machine observe & obey all safety decals on the machine and warnings listed in the manual. Failure to do this could result in serious injury or death to you or others.

Remember at all times that as the operator, you are responsible for the safe operation of this equipment and are responsible for the safety of others. Good safety practices not only protect you but also protect the people around you.

****IMPORTANT SAFETY INFORMATION****

⚠️ WARNING

General Ladder Safety For Side Mounted Ladders (If equipped)

A WARNING SYMBOL INDICATES A HAZARDOUS SITUATION WHICH, IF NOT AVOIDED, COULD RESULT IN SERIOUS INJURY OR DEATH

There are potential hazards that are associated with side-mounted ladders. Care must be taken while using these ladders. Following these basic guidelines and good COMMON SENSE can help prevent accidents. At any time are you unsure, please ask your supervisor.

⚠️ WARNING ALWAYS

- Thoroughly inspect the ladder prior to use. Inspect for missing or damaged components and loose fasteners. DO NOT use if not in good working order. See your Supervisor for corrective actions.
- Use a three-point method in mounting and dismounting equipment. When mounting, face the equipment, using both hands, firmly grasp the handhold while placing one foot solidly on the step and proceeding upward on the ladder. When dismounting, face the equipment, using both hands, firmly grasp the handhold while placing one foot solidly on the step and proceeding downward on the ladder.
- Keep body centered on the ladder. DO NOT overreach.
- Use all steps and handholds provided when mounting or dismounting the equipment.
- Keep steps as clean as possible.
- Park in an area that provides maximum protection for the operator and passenger. Ensure a safe, solid landing area for mounting and dismounting the equipment.
- Shut off engine and set the parking brake prior to use of the ladder.

⚠️ WARNING NEVER

- Jump from equipment
- Leave equipment unattended with the engine running.
- “NO RIDERS” DO NOT ride on the equipment at any time.
- Keep the ladder in the “up” position except when in use.

MAINTENANCE

- Be sure that the hinge assembly is lubricated on a regular basis with a light weight oil. The ny-lock nuts and bolts should be “snug” to allow the ladder to pivot freely. Inspect the nuts and bolts for wear and replace as needed.
- The rubber Jeep catch to lock the ladder in the “up” position after time becomes weather checked and the rubber may deteriorate. Inspect the Jeep catch weekly and replace as needed.

****IMPORTANT SAFETY INFORMATION****

CAUSES OF A EQUIPMENT ROLL OVER

A WARNING SYMBOL INDICATES A HAZARDOUS SITUATION WHICH, IF NOT AVOIDED, COULD RESULT IN SERIOUS INJURY OR DEATH

- ⚠ WARNING** Never dump or drive equipment on uneven ground.
- ⚠ WARNING** Keep dump body free of material build up, that can result in an unbalanced load.
- ⚠ WARNING** Material should be centered in the dump body while loading, before being transported, or dumped.
- ⚠ WARNING** Ensure equipment is in good working condition before each use.
- ⚠ WARNING** The inside of the dump body should be smooth and free of holes.
- ⚠ WARNING** Material can freeze in the winter if stored in the dump body causing load to be unbalanced.
- ⚠ WARNING** Avoid dumping to close to the edge of the area that is being filled.
- ⚠ WARNING** Ensure the tailgate is unlatched before raising the dump body.
- ⚠ WARNING** Allow truck to move forward slightly while dumping.
- ⚠ WARNING** Immediately lower dump body if any leaning occurs during the dumping process.
- ⚠ WARNING** No one should be beside of the truck while dumping.
- ⚠ WARNING** Watch for obstacles above the truck including but not limited to utility wires and branches.
- ⚠ WARNING** Always stay alert and pay close attention to the surrounding area while driving or operating this equipment.
